## Cattle Mutilation

### CRAFT ► PUBLIC/CAR-1

Some cows were mutilated by unknown individuals in a manner that is often attributed to aliens. We should capture the locals and interrogate them, especially if they are hostile. If capturing them alive is impossible, do what you must. You only have 18 turns to complete the mission before the enemy arrives. If you fail to complete it on time, prepare to be obliterated! To abort the mission return X-Com operatives to the transport vehicle and click on the 'Abort Mission' icon.
